

Jose A. Villadangos, Ph.D  
Professor  
NH&MRC Principal Research Fellow

THE UNIVERSITY OF  
MELBOURNE

May 2016

## Post-doctoral Position (Research Officer)

### *Adoptive Cell Therapy Against Cancer*

Laboratory of Jose Villadangos  
*Peter Doherty Institute of Infection and Immunity*  
*The University of Melbourne, Australia*

The successful applicant will participate in a research program funded by the Cancer Research Institute (USA) and the Anti-Cancer Council of Australia under the supervision of Prof. Jose Villadangos in the Department of Microbiology and Immunology at the Peter Doherty Institute. The Villadangos laboratory studies the mechanisms of antigen presentation, the development and function of antigen presenting cells, and the induction of T cell immunity. The successful candidate will develop a strong publication record, will collaborate with other researchers in the Department of Microbiology and Immunology, and is encouraged to build an independent research program.
