

Postdoctoral Fellow - Immunology (MICBIO 16-0137)

The West Virginia University Research Corporation (WVURC) invites applications for a postdoctoral researcher to join Dr. Edwin Wan's research group in the Department of Microbiology, Immunology & Cell Biology. The team uses animal models and clinical specimens to elucidate the role of cytokine signaling in autoimmune diseases, with recent focus on neuro-inflammation (for example, see Wan et al., *Immunity* 38:514-27 (2013); Wan et al., *Nat Commun* 6:7988 (2015); Wan et al., *PNAS* 112: 9394-9 (2015); Wan et al., *J Immunol* 196:543-6 (2016)).

The incumbent will work in an interactive and collaborative environment, and will receive excellent training and mentorship to prepare for the next step of his/her career.

Motivated candidates with a Ph.D. degree in immunology, cell and molecular biology, or related science field within the past 5 years, and with broad interest in studying signaling pathways underlying the pathogenesis of autoimmune and/or infectious diseases are encouraged to apply. Experience working with mouse models are required; experience in flow cytometric analysis and/or in various microscopic techniques are preferred.

Competitive salary and benefits package offered. For a complete job description and to apply for this position, please visit <http://hr.research.wvu.edu> and click on the "View Jobs" link. Qualified applicants should submit a cover letter, curriculum vitae, and contact information for three references as part of the application process. For questions or additional information, contact Dr. Edwin Wan, 304-293-6293, email: edwin.wan@hsc.wvu.edu.

WVU is a comprehensive land grant university with 29,000 students. WVU is classified by the Carnegie Commission on Higher Education as a Research-High Activity Institution. The University community of Morgantown offers plentiful educational opportunities as well as recreational outlets, is within easy driving distance of Pittsburgh, PA, and is about 200 miles northwest of Washington, D.C.

WVURC is an AA/EOE/Minorities/Females/Vet/Disability/E-verify compliant employer.
